

This unique Centre provides real choices in pet health care.

SARNDRA is New Zealand's most respected animal health practitioner, using her training in nursing, vet nursing, NLP, homeopathy, herbal medicine, the flower essences and adult education qualifications. She has been in practice for over 40 years and provides the course material for New Zealand's first NZQA approved Diploma in Applied Natural Animal Health. Sarndra is a well-known writer on holistic animal health issues and features on Radio Live National Talkback with Keith Stewart.

NICKY: Veterinary Nurse from one of New Zealand's most experienced feline veterinary clinics. Passionate about owner education; has experienced the effectiveness of homeopathy with her own dogs.

THERESE: Veterinary Nurse from a rural mixed practice. Lifestyle Block experience offering sound practical advice combined with her love and knowledge of herbal medicine.

Mission Statement

- Facilitate the wellbeing of animals through providing choices in health care.
- Promote an appreciation of human-animal relationships via the understanding of sentience.
- Maintain an environmentally sustainable business using established and proven principles.
- Provide an educational facility for exploring these goals.
